While we have origins in the megalithic era and traces from the Greeks and Romans, our documented history begins in the year 974. Since then, we have been a refuge for pilgrims and travelers.

Starting out, the town was founded under the rule of the Monastery of Sant Pere de Rodes. The main economic activities were vineyard cultivation, oil production and fishing, which gave rise to El Port de la Selva.

Throughout our history, we have had to defend ourselves from pirates, plagues and invasions. These challenges have allowed us to forge a unique identity and preserve an architectural richness that you can now enjoy.
